## **ABOUT US**

HISTOTO LIMITED is a Private Company with its focus in Power Infrastructure and Telecommunication Sectors. Since its inception in 2001, the company prides itself on accomplishment of various projects. We are particularly motivated to focus on these sectors on the realization of the relationship between energy and development. Africa Needs energy to grow and so the infrastructure to channel the energy.

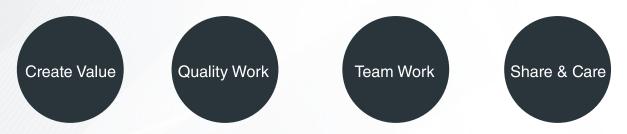

#### **VISION**

To be a leading provider of quality, sustainable Power and ICT Infrastructure Solutions in Africa.

#### **MISSION**

HISTOTO is passionate in doing ethical business in the field of Power and Utility ICT Infrastructure Solutions and Services in Africa, in particular the provision of Energy Storage Systems, ICT Infrastructure, Electrical Switchgear and Systems, while taking care of our environment.

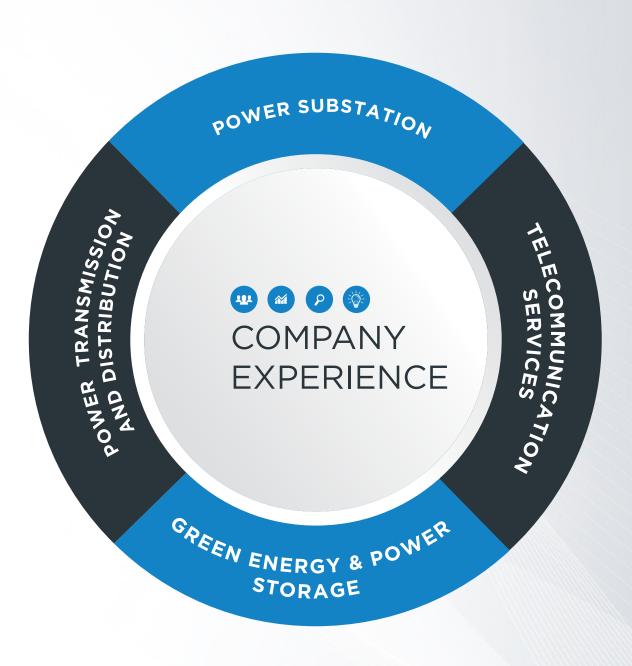

#### **CORE VALUES**

WELCOME TO HISTOTO LTD

WE ARE AN ISO 9001 CERTIFIED COMPANY

#### CIVIL WORKS

ROADS are very important in the development agenda of any country especially in connecting countries, ease of movement of both people and goods, creation of employment, promoting foreign trade and investment just to mention a few.

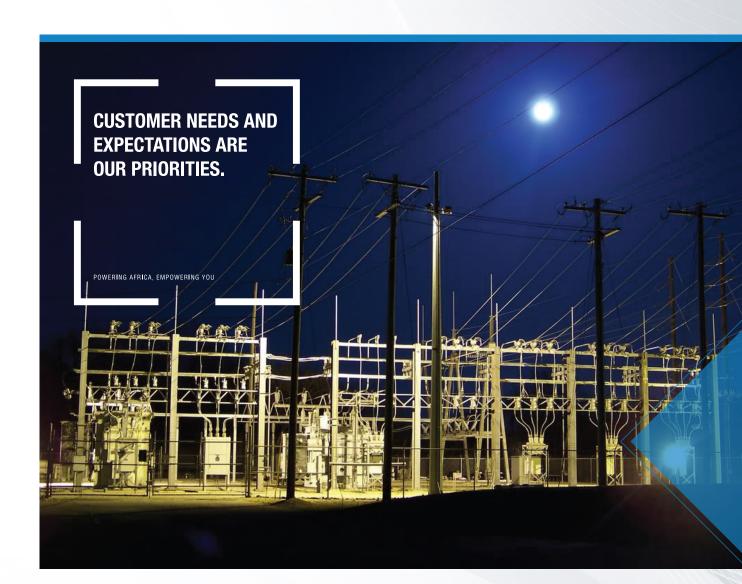

HISTOTO has built expertise in Designing Roads and Civil Engineering Projects, including upgrading and rehabilitation of existing roads, construction of new roads, bridges, maintenance of new and existing roads and sewers.

Moreover, it engages in building constructions by employing modern technology in the construction of offices and warehouses as well as large scale infrastructure such as power stations, substations and mass constructions.

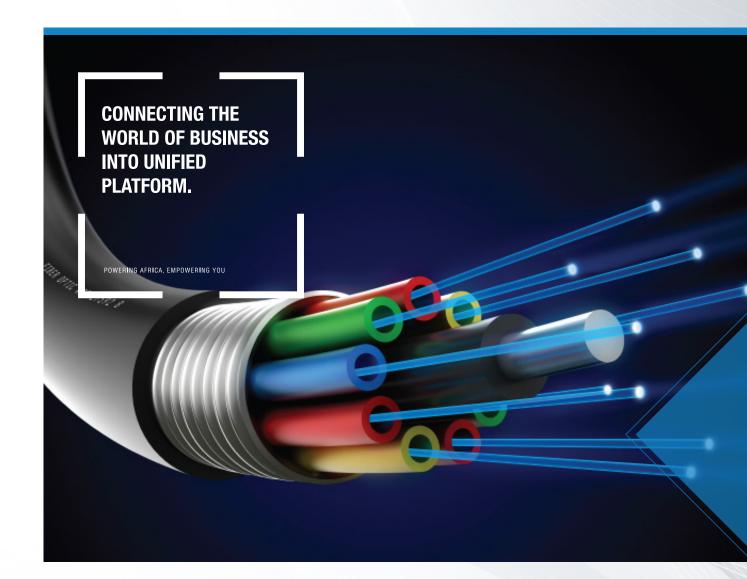

### POWER SUBSTATION

Power Substations are at the heart of Power distribution. Histoto has executed various EPC Substation projects in the Medium and High Voltage levels. Through our sister company Vecta Electric, we have capacity to supply all the electrical panels required for the substations.

## TELECOMMUNICATION SERVICES

HISTOTO is specialized in providing of telecommunication services right from designing, installing, commissioning and maintenance of optical networks, remote monitoring, voice systems, communication networks, certified managed switches and ICT services in general.

## GREEN ENERGY & POWER STORAGE

Africa is endowed with plenty of Solar energy, which if well harnessed may supply the entire continent energy needs. To harness this natural energy Histoto promotes use of Solar PV systems as a renewable source of energy.

Some loads are critical for business continuity. In realizing this and coupled with the need to harness the solar energy, for the critical loads, Histoto has collaborated with reputable manufacturers to provide the needed solution for these critical loads. We design energy storage systems from 1kW to 1MW and configured to supply power over a wide range of period.

# POWER TRANSMISSION AND DISTRIBUTION

The Continent of Africa has a severe need of reliable electricity and telecommunication infrastructure. Further, available infrastructure is old and unreliable and require overhaul, upgrading of complete replacement. Large parts of the continent lack electricity negatively affecting social and economic development of the regions. HISTOTO has been in the forefront of promoting development of infrastructure in Africa.

# PROJECT TIME DELIVERY IS A VERY IMPORTANT DELIVERABLE IN ANY PROJECT. POWERING AFRICA, EMPOWERING YOU

## PROJECT MATERIAL SUPPLY

HISTOTO so well understands the need to deliver the project in set time. Supply of timely project materials is key in enhancing the project time delivery. Towards this end, HISTOTO has partnered with reliable stockists and importers locally. HISTOTO has also made partnerships with some of the major suppliers located in Europe, India and Dubai.

## PROJECT MANAGEMENT

Success of any project is anchored on its management. HISTOTO believes in solid project management straight from Project Inception, Execution, Commissioning and Testing. We at HISTOTO have the capacity in delivering project management in areas of ICT, Energy and Transport Systems Infrastructure. To achieve proper project time delivery and efficient resource management, the company utilizes latest Project Management Tools such as Microsoft Project. At HISTOTO we believe in Quality. We have put together Quality Assurance Plans (QAPs) for all Products, Services and Solutions to make sure that Quality is complied with at all times.

## REGISTRATIONS

- ISO 9001:2015 Certification
- NCA 1 Electrical Instalation
- NCA 3 Building Works
- NCA 5 Road Works
- C1 ERC Registration for Solar PV system contractor
- V2 ERC Registration for Solar PV system manufacturer/importer
- Communications Commission of Kenya Telecommunications Contractor
